A Perfect Security against all manner of Fraud or Counterfeiting on Paper—To Prevent Photographs and Acetic Counterfeits, Erasures, Printers or Alterations

HAVING purchased the Patent for the exclusive right to manufacture and sell the Chemical Paper in America invented and patented in England by HENRY GLYNN, a celebrated chemist and author in the British army it is hardly necessary to say that the Paper is recommended by Mr Kent Assayer of the U S Mint, Mr Lyman of the New York Clearing House, and Meade Brothers, extensive and skilful photographers, 233 Broadway, N Y The latter say that no imitation can be made on a check or bank note printed on the Safety Paper Below is our list of prices

Bank Checks—40 cts per lb
Bank Bills—$15 for 1000 sheets
Bills of Exchange—$25 for 1000 sheets
Promissory Notes—40 cts per lb
Sight and Time Drafts—$25 for 1000 sheet.

Railroad Stocks and Bonds—40 cts per lb

For wrapping Silks and other nice articles it is excellent, as it prevents moths 40 cts a lb
For Indentures and Agreements 40 cts a lb

All State and County Records should always be printed or written on this paper as the chemicals inserted in the pulp not only prevents erasure or transfer but make it lasting as time

For Southern climates it is excellent and much superior to any other as the moistness of the climate does not destroy it,—the properties inserted in the pulp being a preventive In all the Southern States Cuba the West Indies and the Central American States no public records can be kept over 20 years written on the ordinary paper while the oils and other chemicals inserted in this paper makes it indestructible by the ravages of time It is also proof against moths, rats and other vermin, which it is not on and destroy all other paper now in use

The Company have now in operation Mills in Morris County N J, of about 300 horse power, and are able to fill all orders for Paper at the shortest notice

Judge Hathaway's Opinion

In the opinion of Judge Hathaway, on the question proposed by the Senate of this State to the Justices of the Supreme Judicial Court occur the following passages

1 It is certain that in the sense in which the word 'citizen' is used in the federal Constitution 'citizen of each State and 'citizens of the United States, are convertible terms they mean the same thing

2 'It is possible there may have been colored persons who came here from Africa *free* men, and who were always free, and that they or their descendants, native and free born, were here at the time of the declaration of independence, and the ded to it the r sanction *If so they were citizens* THEIR COLOR COULD NOT EXCLUDE THEM

3 It is therefore my opinion that free colored persons of African descent having a residence established in some town in this State for the term of three months next preceding any election, whose ancestors were of African blood (as they would be apt to be if they are of African descent) and were brought into this country and sold as slaves, are not being citizens of the United States are not authorized under the provisions of this State to be electors for Governor or Senators and Representatives And it is also my opinion, *that all other free colored persons of African descent, if there are any such in this State who have the qualifications required by law to make free white persons electors for those officers* are authorized under the provisions of the Constitution of this State to be electors for Governor, Senators and Representatives

These extracts from the opinion of the learned Judge show that in his judgment a negro is a *man* (see extract 2d) that there is no physical or moral incompatibility in his being a citizen of the United States and of this State that his color does not exclude him and that in the opinion of the same high functionary many free men natives of the State of Maine with no incompatibility of race or color and subject to no disability of pauperism crime, imbecility insanity or non age, are deprived by the supreme law of the land of all the rights and privileges of citizenship, and further that the fatal incompatibility or disability or, in other words, the controlling reason why a native born inhabitant of Maine cannot be a citizen thereof, must be found in the fact THAT THE LEGISLATURE OF SOME OTHER STATE, AT SOME REMOTE PERIOD, DECLARED THAT HIS ANCESTOR SHOULD BE HELD AS A SLAVE

The Legislature of Florida makes Sam Jonson a slave, and the Constitution of the United States holds slavery to be so great and good and sacred a thing that it will not permit the sovereign people of Maine, by their organic law even when Sam comes as a free man to live among them and be a resident of their State, to remove the disability to which he was made subject by the law of Florida or in other words the law of Florida upon the soil of Maine and within her jurisdiction and acting upon her people is paramount to her own constitution

Florida by law may affix a disability to a person living within her jurisdiction, which, under the Constitution of the United States must follow him wherever he goes, and which no free State, when he removes thereto, can unfix

THE LAWS OF THE SLAVE STATES ARE PARAMOUNT AND SUPREME NOT ONLY WITHIN THEIR OWN LIMITS, BUT ALSO WITHIN THOSE OF ALL THE FREE STATES

What a humiliation if the people of Maine must acknowledge that, under the federal Constitution, their power to declare who may be citizens of their own State is limited by the legislation of any one of the fifteen slave States

If Maryland should, by her laws, make bondmen of Roman Catholics and the Supreme Court of the United States, carrying out the principles upon which the opinion of Chief Justice Taney in the Dred Scott case is based should decide that Catholics are not citizens of the United States, Judge Hathaway would be under the necessity of deciding that Catholics cannot be made citizens or electors in the State of Maine Would he do it?

Suppose the State of Arkansas should decree that all Episcopalians found in that State should be slaves (and they might do so, if it can make slaves of any body,—for neither slavery nor citizenship depend upon race or color),—and our able and worthy judge, in passing through that State, should be caught and sold into slavery, what would he think of the decision of a Court which should stamp upon this status of slavery—which might continue but for a single day—the perpetual incompatability of citizenship in any and every other State in the Union? Would he believe it to be law which "any white man was bound to respect?" Wouldn't he denounce it and the age in which it was possible it could be declared, and avow that

He would rather hold it better men should perish one by one,
Than that earth should stand at gaze like *Joshua's moon in Ajalon*?

CAN NEGROES PRE EMPT LANDS—Last November Isaiah Lawrence, of New York, a man of African descent who desired to go to Minnesota, with a view to pre-empt and settle up on a quarter section government land, wrote to Secretary Marcy, of the State Department, inquiring whether there was anything in the laws of the Territory to prevent him from doing so Mr Marcy refered the matter to Mr McClelland, of the Department of the Interior, who wrote in reply

"I have to state that there is nothing in the laws of the United States which would prevent you as a free man of African decent from settling on public land in the territory of Minnesota, and acquiring a right of pre emption"

Upon this explicit information, Mr Lawrence went in June to Minnesota, but the Dred Scot decision having preceded him, the Register of the Land office at Stillwater, gave an opinion adverse to his right of pre-emption—Mr Lawrence (June 27th) wrote to Jacob Thompson Mr Buchanan's Secretary of the Interior, expressing the hope that he would confirm the decision of his predecessor But Mr Thompson has not yet found time to answer the question Why should he hesitate? The Supreme Court has reversed the decision of all the Presidents and all the Congresses, by deciding or attempting to decide, that a negro is not a citizen why should Mr Thompson hesitate to overturn the decision of Mr McClelland? Let the nigger be sent back to New York, so that his return to the business of boot black or porter may furnish a new argument to dough faces against the incompetency of his race to better their condition —*Traveller*

Position of Temperance Men.

MR EDITOR You talk very well upon the subject of the position of the Maine Law men in the Republican party They wish, greatly the success of the party and I am fully satisfied with your statement of the case, wishing simply to add this much, that there must not be any discrimination against temperance—Avoid that rock, and all will be well

TEETOTALLER

BRADEY'S GALLERY — We have received from Bradey's Gallery, No 359 Broadway, New York, an excellent Photograph Likeness of Horace Greeley This is the first of a series of Photographs—embracing many of the prominent men of the country, which will be issued from time to time, at one dollar each—thus placing them within the reach of all—The one before us is an admirable likeness

Feeble churches in New England are becoming more and more abundant Ex Gov Slade says that he knows of ten churches in Vermont which will soon cease to be self supporting The Hartford Religious Herald ascribes the cause of this to emigration, and says that if this depleting deteriorating process goes on in our country for thirty years longer as it has for the ten years past, it does not see but that the money which has flowed from East to West to establish churches must come back again and feeble churches in Vermont, New Hampshire, and even Connecticut, be aided by flourishing and wealthy Western churches, who owe their existence, under God, to the Christian enterprise and benevolence of New England

SECRETARY'S OFFICE,
AUGUSTA, *Aug* 3, 1857

Opinions of the Justices of the Supreme Judicial Court, published in conformity to the foregoing order

A JACKSON, *Secretary of State*

Opinions of the S. J. Court.

The undersigned Justices of the Supreme Judicial Court, respectfully present their opinion in answer to the interrogatory addressed to them by the order of the Senate under date of March 26, 1857

The interrogatory, as propounded, is very comprehensive in its terms, and includes free colored persons of African descent, having a residence established in some town in this State for the term of three months next preceding any election,' &c, whether such persons are men, women, children, paupers, persons under guardianship, or unnaturalized foreigners

Presuming it to have been the intention of the Senate to confine the inquiry to free colored male persons of African descent who are twenty one years of age and upwards, and who are possessed of the other qualifications requisite to constitute a white citizen a voter, we will proceed to answer

Art ii, § 1, of the constitution of Maine, provides that

"Every male citizen of the United States of the age of twenty one years and upwards, excepting paupers, persons under guardianship, and Indians not taxed, having his residence established in this State for the term of three months next preceding any election, shall be an elector for Governor Senators and Representatives in the town or plantation where his residence is so established

This raises for our consideration the distinct question whether free native born colored persons of African descent, are recognized as citizens, of the United States, in the above provision of the constitution

The political status of that portion of the African race, in this country, which is not in a state of slavery, has long been a matter of contestation, not only among politicians, but to some extent also among courts and jurists

Chancellor KENT in a note on the 257th page of the second volume of his Commentaries (4th edition,) says

"Citizens, under our constitution and laws, mean free inhabitants born within the United States, or naturalized under the laws of Congress If a slave, born in the United States be manumitted or otherwise lawfully discharged from bondage, or if a black man be born within the United States, and born free he be comes thenceforward a citizen but under such disabilities as the laws of the States respective ly may deem it expedient to prescribe to free persons of color"

This doctrine, though supported by high judicial authority, is by no means universally admitted Courts and jurists of high respectability and authority have denied that negroes of African descent whose ancestors were of pure African blood and were brought into this country and sold as slaves, are or can become citizens of the United States, within the constitution of the United States This doctrine has recently been maintained with much zeal, and at great length, in the case of Dred Scott vs Sandford, 20 Howard's U S R, 393 Substantially the same doctrines have been promulgated in Amy vs Smith, 1 Littell's Ken R 334 State vs Claiborne, 1 Meigs Ten R 231, Pendleton vs State 1 Eng Ark R 509 Cooper vs The Mayor of Savannah, 4 Geo 68 and by DAGGETT, C J. in State vs Crandall in Connecticut

As to the correctness of these decisions, we express no opinion. Each must stand upon its own intrinsic merits, and they will undoubtedly receive that degree of respect to which, as legal productions they are justly entitled—They do not, however, affect the question now before us.

Our present inquiry is confined to an interpretation of the provisions in our own constitution already cited, and the term 'citizen of the United States, as used therein

Art iv, § 1, of the constitution of the United States, provides that

"The citizens of each State shall be entitled to all the privileges and immunities of citizens in the several States

Our inquiry therefore extends not only to the rights of free colored persons of African descent who are born within this State, but also to the same class of persons who may have been born in other States, but who have become residents of this State

Chief Justice TANEY, in the opinion of the majority of the Court in the case of Dred Scott vs Sandford, cited above, lays down the following propositions as to the citizenship of the United States.

"It is true every person, and every class and description of persons, who were at the time of the adoption of the constitution, recognized as citizens in the United States, became also citizens of this new political body, but none other, it was formed by them, and for them and their posterity, but for no one else And the personal rights and privileges guaranteed to citizens of this new sovereignty, were intended to embrace those only who were then members of the several State communities, or who should afterwards, by birthright or otherwise, become members according to the provisions of the constitution and the principles on which it was founded. It was the union of those who were at that time members of distinct and seperate political communities into one political family, whose power, for certain specified purposes, was to extend over the whole territory of the United States. And to give to each citizen rights and privileges outside of his State which he did not before possess, and placed him in every other State upon a perfect equality with its own citizens as to rights of person and rights of property, it made him a citizen of the United States

Rawle in his commentaries says

"The citizens of each State constituted the citizens of the United States when the Constitution was adopted The rights which appertained to them as citizens of those respective commonwealths accompanied them in the formation of the great, compound commonwealth which ensued They became citizens of the latter without ceasing to be citizens of the former, and he who was subsequently born a citizen of a State, became, at the moment of his birth, a citizen of the United States—Rawle on the Const, p 86

'Every citizen of a State, is, *ipso facto*, a citizen of the United States Story on the Const, vol 3, p 565

Such being the operation of that provision of the constitution of the United States which we have cited above, upon the condition of those persons who were recognized as citizens of the several States at the adoption of the constitution, it becomes pertinent to our inquiry to ascertain the political condition of the free colored people of African descent in the several States, at that time Were they then recognized as citizens of any of the States which entered into and composed a part of the United States? Let the constitutions of the States then existing, and the practice under them, answer The fact of citizenship may be established in various ways The enjoyment of the elective franchise is believed to be one of the highest tests of that fact There may be citizenship without the enjoyment of this right, as in the case of women children, paupers, and the like but it is believed no instance can be found in which the right to vote at our general elections has been conceded to persons born on our soil who were not at the time deemed citizens of the State in which they enjoyed the right

The constitution of the United States was adopted Sept 17, 1787

The constitution of New York, adopted April 20, 1777, section 7, provides

"That every male inhabitant of full age, who shall have personally resided in one of the counties of this State for six months immediately preceding the day of election, shall at such election be entitled to vote for representative in said county in assembly, if during the time aforesaid, he shall have been a freeholder possessing a freehold of the value of twenty pounds, within said county, or have rented a tenement therein of the yearly value of forty shillings, and been rated and actually paid taxes to the State

By the constitution of New York, adopted in 1821 Art xi, § 1, the qualification of electors was to some extent modified, the word 'citizen' was substituted for the word 'inhabitant, and other modifications made, among which was added the following clause

"But no man of color unless he shall have been three years a citizen of this State, and for one year next preceding any election shall be seized and possessed of a freehold estate of the value of two hundred and fifty dollars over and above all debts and incumbrances charged thereon, and shall have been actually rated, and paid a tax thereon, shall be entitled to vote at any such election

The old constitution did not contain this provision discriminating against the "man of color

The constitution of New Jersey, adopted July 2, 1776, §4, provides

"That all inhabitants of this colony, of full age who are worth fifty pounds, proclamation money, clear estate in the same, and have resided within the county in which they claim a vote for twelve months immediately preceding the election, shall be entitled to vote for representatives in council and assembly, and also for all other public officers that shall be elected by the people of the county at large

In 1844, the constitution of New Jersey was amended, and the elective franchise was restricted to 'white male citizens of the United States

Maryland adopted a constitution in 1776, the second section of which provides that

'All freemen above twenty one years of age, having a freehold of fifty acres of land in the county in which they offer to vote, and residing therein, and all freemen having property in this State above the value of thirty pounds, current money, and having resided in the county in which they offer to vote one whole year next preceding the election shall have a right of suffrage in the election of delegates for such county

And by the fourteenth section, *all persons* qualified as aforesaid to vote for delegates, were also made electors of senators

The constitution was so amended in 1801–2 that the right of suffrage was confined to 'free white male citizens above twenty one years of age, and no others

North Carolina adopted a constitution Dec 18, 1776 This constitution contains the following provisions

"Sec 7 That all freemen of the age of twenty one years, who have been inhabitants of any one county within the State twelve months immediately preceding the day of any election, and possessed of a freehold within the same county of fifty acres of land, for six months next before, and on the day of election shall be entitled to vote for a member of the senate

'SECT 8 That all freemen of the age of twenty one years, who have been inhabitants of any county within the State twelve months immediately preceding the day of election and shall have paid taxes, shall be entitled to vote for members of the house of commons for the county in which here sides

SECT 9 That all persons possessed of a freehold in any town in this State, having a right of representation and also all free men who have been inhabitants of any such town twelve months next before and at the day of election, and shall have paid public taxes, shall be entitled to vote for a member to represent such town in the house of commons'

In 1835, the following amendment was adopted touching the right of suffrage

No negro, free mullatto or free person of mixed blood descended from ancestors to the fourth generation inclusive, (though one ancestor of each generation may have been a white person,) shall vote for members of the senate or house of commons'

In the case of *State v Manuel* decided by the Supreme Court of North Carolina in 1839, 2d Dev & Bat, 20, GASTAN, J, in a very elaborate opinion of the Court, uses the following language

"Before our Revolution, all free persons born within the dominions of the King of Great Britain, whatever their color or complexion, were native born British subjects, those born out of his allegiance were aliens Slavery did not exist in England, but it did exist in the British colonies Slaves were not in legal parlance persons, but property The moment the incapacity or disqualification of slavery was removed, they became persons, and were then either British subjects or not British subjects, accordingly as they were or were not born within the allegiance of the British King Upon the Revolution no other change took place in the law of North Carolina than was consequent upon the transition of a colony dependant on an European King to a free and sovereign State Slaves remained slaves, British subjects in North Carolina became North Carolina freemen Foreigners, until made members of State continued aliens Slaves manumitted here become freemen—and therefore if born within North Carolina—and all free persons born within the State are born citizens of the State'

Again, he says

"That constitution [1776] extended the elective franchise to every freeman who had arrived at the age of twenty one, and paid a public tax, and it is a matter of universal notoriety that under it free persons, without regard to color, claimed and exercised the franchise until it was taken from free men of color, a few years since, by our amended constitution'

The soundness of the doctrine of this opinion has since been recognized by the same Court in the case of *State* v *Newsom* 5 Iredell 250

Sect 2 of ch 1 of the constitution of Massachusetts, adopted in March 1780, reads as follows

"The senate shall be the first branch of the legislature, and the senators shall be chosen in the following manner, viz there shall be a meeting on the first Monday in April, annually, forever, of the inhabitants of each town in the several counties in this commonwealth to be called by the select men, and warned in due course of law at least seven days before the first Monday in April for the purpose of electing persons to be senators and councilors and at such meetings every male inhabitant of twenty one years of age and upwards having a freehold estate within the commonwealth of the annual income of three pounds or any estate of the value of sixty pounds shall have a right to give in his vote for the senators for the district of which he is an inhabitant And to remove all doubts concerning the meaning of the word inhabitant,' in this constitution every person shall be considered an inhabitant, for the purpose of electing and being elected into any office, or place within the State in that town district, or plantation, where he dwelleth or hath his home'

Slavery has not existed in Massachusetts since the adoption of the Constitution, in 1780 *Com v Aves* 18 Pick 193 And from that day to the present those free men of African descent who possessed the qualifications required of white citizens have enjoyed the rights of the elective franchise in that State

The constitutions of other States adopted before and since the formation of the present federal government contained provisions equally broad and liberal, with reference to the right of voting as those from which we have already quoted while in others of the thirteen States which originally composed the Union the right of voting in the general elections was confined to free male white citizens The same formula of words is also used to limit and define the rights of electors in several of the constitutions of States which have been created and admitted into the Union since the Constitution of the United States was adopted, and also in sundry laws passed by Congress under the Constitution Whether this form of words does not carry the implication that citizens exist who are not *white* we do not deem it important now to consider nor do we deem it essential to pursue this branch of our inquiry further at this time

Such was the condition of things in 1820 when Maine then constituting a part of the State of Massachusetts was erected into a new and independent State and her citizens after having lived under the Constitution of 1780 for a period of forty years, formed the Constitution under which we now live The Convention which formed that Constitution was composed of our most intelligent and influential citizens Every important provision in that instrument was adoped Nor did the section which prescribed the qualification of electors pass unchallenged When that section was under consideration Mr Vance of Calais moved to insert the word of 'Negroes' after the words Indians not taxed'

Mr Holmes said

The 'Indians not taxed were excluded not on account of their color but of their political condition They are under the protection of the State but they can make and execute their own laws They have never been considered members of the body politic But I know of no difference between the rights of the negro and the white man,—God Almighty has made none—our Declaration of Rights has made none That declares that all men' (without regard to color) 'are born equally free and independent'

"Mr Vance and Mr Rose spoke in favor of the motion, but it did not obtain *Perley's Debates* p 95

From the adoption of the Constitution to the present day it is believed there has been no instance in the State which the right to vote has been denied to any person resident within the State, on account of his color

In view of these facts and considerations, we are of the opinion that our Constitution DOES NOT DISCRIMINATE BETWEEN THE DIFFERENT RACES OF PEOPLE *which constitute the inhabitants of our State* but that the term, citizens of the United States' as used in that instrument APPLIES AS WELL TO FREE COLORED PERSONS OF AFRICAN DESCENT, as to persons descended *from white ancestors* Our answer, therefore is that

Free colored male persons OF AFRICAN DESCENT, of the age of twenty one years and upwards, having a residence established in some town or plantation in this State, three months next preceeding any election and who are not paupers aliens nor persons under guardianship ARE AUTHORIZED UNDER THE PROVISIONS OF THE CONSTITUTION OF THIS STATE TO BE ELECTORS FOR GOVERNOR, SENATORS AND REPRESENTATIVES

Breadstuffs were very dull, with a slight decline in prices.

Provisions quiet. Lard has slightly advanced in price, closing 30 shillings.

Cotton continues uninteresting.

The Persian company it is understood, has made a reparation for 6 000 additional.

The indemnity is to be 10 000 000 to £10,000,000.

Hostilities again at Persia refuses to evacuate Herat as prompted hereto by the Indian Government.

All was perfect peace was quiet, but prices were firm.

The Liverpool market for cotton was very active and fluctuated considerably under influence of rumors in regard to India. The sales of Tuesday were 9000 and 9000 with money and account. The prospects for the cotton crop were unfavorable. The sales of the week to the steamer were 40 000 000. The India mail brought news of a further rise of cotton and their rates for bills on India.

COMMERCIAL CONVENTION *Knoxville Whig*—The business committee in the Commercial Convention reported to day against duties and direct taxation against the importing goods from States not upholding the Fugitive Slave Law against any discrimination of the government in favor of the products of the States from Northern ports, in favor of the emancipation of one slave to each citizen by seizure for debt in favor of the admission of Arizona into a Territory in favor of the acquisition of certain lands lost by the recent war with Mexico. They also reported that the subject not yet arrived for the calling of the Convention with reference to the African slave trade. Resolutions in favor of Montgomery as the place of meeting for the Convention, in favor of the withdrawal of the squadron from the African coast were adopted.

DISPATCHES FROM TEXAS *Washington*, Aug 14—New Orleans papers of the 8th inst have the death of Gen Rusk produced a profound sensation in Texas. The Galveston and Indiana papers were dressed in mourning on his account.

The Galveston News complains of drouth, such as he has never been known before. Parts of the towns on the coast of Texas are unusually good.

The Colorado Advocate says the planters on the Colorado were exultant at the prospect of a large cotton crop.

At Washington, the Brazos river had risen four feet.

Accounts of the crops from the back country were generally good.

DEATH—On the last trip of the steamer Philadelphia from Boston to this place, Mr Alexander Cosby was seized with sea sickness, and expired after a few hours illness.

IMPORTANT FROM KANSAS *St. Louis, Aug. 14* The Kansas correspondent of the Democrat says that Judge Cato has published an opinion, stating that the payment of taxes is essential to the rights of voters.

The sheriff of Douglas county has given notice of his intention to collect the taxes.

Rumors say that Generals Lane and Robinson, and Messrs Phillips, Conway, Blood and others, have been indicted by the Grand Jury at Lecompton.

WASHINGTON NEWS *Washington*, Aug 16 Until the meeting of Congress, no diplomatic appointments will be made, except such as are demanded by the public exigencies, as it is desired that successors to the present encumbents shall not go abroad until their appointments shall have been confirmed by the Senate.

A letter is now on the way to Hon Frederick P. Stanton, Secretary of State of Kansas, tendering him the appointment of Superintendent of Indian Affairs, in place of Governor Cumming, but the appointment is not to take effect until the meeting of Congress.

NEW BRUNSWICK RAILWAYS—There is now no doubt that under even ordinary management the line of Railway from Saint Andrews to Woodstock will be carried on to completion, as well as the line from this City to the Bend which will connect St John and all its great and varied interests with the port of Shediac, on the Gulf of St Lawrence, the Railway from the Bend to the latter place being about completed. The former undertaking is the work of a private company, which has been largely assisted by grants from the Legislature, while the Railway from St John to Shediac is being constructed by the Province.—*St John New Brunswicker*

Competition has caused many an honest but timid man to become bankrupt and sink into obscurity, while in others it has awakened the ambition and energies which otherwise might never have been developed. It has caused them to pursue a course which has built up a reputation and secured for them a fortune, which in all probability, they would never have acquired had it not been for this.

American & Foreign Patents.

R. H. EDDY,

SOLICITOR OF PATENTS,

(Late Agent of U S Patent Office, Washington, under the Act of 1837.)

No. 76 State Street, opposite Kilby St., BOSTON

AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States, also in Great Britain, France, and other foreign countries Caveats, Specifications Assignments, and all Papers or Drawings for Patents executed on the most reasonable terms, and with despatch Researches made into American or foreign works, to determine the validity or utility of Patents or Inventions, and legal or other advice rendered in all matters touching the same Copies of the claims of any Patent furnished by remitting One Dollar Assignments recorded at Washington

This Agency is not only the largest in New England but through it inventors have great advantages for securing Patents, ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to any which can be offered them elsewhere The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber, and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY he would add that he has abundant reason to believe, and can prove, that if no other office of the kind are the charges for professional services so moderate—the immense practice of the subscriber during twenty years past has enabled him to have on hand a vast collection of specifications and other documents relative to patents and official decisions exclusive library of [illegible] These besides his extensive personal and mechanical works and models of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents

All necessity of a journey to Washington, to procure a Patent, and the usual great delay there are here saved inventors

Testimonials

"During the time I occupied the office of commissioner of Patents R H EDDY, Esq, of Boston came to the Patent Office as Solicitor for procuring Patents—I there were less, if any, persons acting in that capacity who had so much business before the Patent Office and there were none who conducted it with more ability and success Regard Mr Eddy as one of the best informed and most skilful Patent Solicitors in the United States, as I have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy and more capable of putting their application in a form to secure them an early and favorable consideration at the Patent Office

EDMUND BURKE,
Late Commissioner of Patents

[From the present Commissioner]

"August 7 1854—During the time I have held the office of Commissioner of Patents, R H Eddy, Esq, of Boston, has been extensively engaged in the transaction of business with the Office as Solicitor, through which he has become favorably known to me and the rules of practice of the office I regard him as one of the most capable and successful practitioners with whom I have had the official intercourse CHARLES MASON

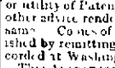
ANTAGONISTIC To Prejudice and Empiricism!

OLD DR. CULVERWELL'S

Member of the Royal College of Surgeons (1807) Licentiate of the Hall (1815) and 28 years Medical Referee, &c.)



Radical Regenerator,

FOR SEMINAL WEAKNESS,

In all its forms, as Nocturnal and Diurnal Emissions Nervous Irritability, Premature Decay, Loss of Virility Impotency, and all the cases arising from early indiscretion

This excellent Remedy, discovered by the world renowned DR CULVERWELL in London, the most successful practitioner in his line for the last 30 years, is now for the first time offered to the afflicted in the fullest confidence of its extraordinary virtues Its salutary effect is almost instantly felt, and it will doubtless at once supersede all other means resorted to, medical surgical or otherwise, to arrest and to cure this awful disease A single trial will convince the most sceptical that a sure and perfect cure may now be had at the expense of a few dollars which up to this date could not be procured for all the gold of the world The heavy expenses incurred in bringing this article before the public could not be risked were its superiority over every means hitherto employed for the same purpose not a sure guarantee to that its employment by *one* person would, through recommendation result in an eventual sale to many

DR CULVERWELL'S admirable and entirely novel plan of treating these diseases, is, in the interest of humanity, recommended to physicians throughout the land, to whom every facility will be afforded for testing its wonderful efficacy in their private practice

Full and plain directions for all the different varieties of the complaint accompany Dr Culverwell s REGENERATOR-REMEDY, so as to enable every one to treat himself or herself successfully Price $2, on the receipt of which it will be forwarded *by mail*, free of postage, to any part of the country Address, Messrs. BRIDGMAN & CO., Druggists and Apothecaries, 168 Grand-St, New York, Sole Agents for the United States and Canada Nov. 19 d&wly.

A MEDICINE THAT NEVER DEBILITATES.

DR. SANFORD'S INVIGORATOR, OR LIVER REMEDY!

HAS ALL THE GOOD QUALITIES OF A Purgative Medicine, answering the purposes of any cathartic without the debilitating effects experienced from most purgatives It acts slowly and gently, but surely, moving the bowels to carry off all the secreted matter, at the same time stimulating the *Liver* to a proper performance of its functions.

The Invigorator cures Sick Headache Take one or two teaspoonfuls at the first attack, and it will soon disappear For an overloaded stomach or when food rises or sours, take the Invigorator after eating and it will not prove disagreeable or oppressive For Heartburn Palpitation or Difficult breathing take a tea spoonful once or twice daily For Loss of Appetite, Languor or Listlessness the medicine is invaluable It will restore the appetite and make the food digest well Nightmare take a teaspoonful on retiring and the demons of dream land will all be fared After eating a hearty dinner take a dose of Invigorator, and it will relieve all oppression or fullness The Invigorator is a Liver Remedy of unequalled virtue, acting directly on that organ curing Dyspepsia, Jaundice Bilious Attacks Dysentery Piles Worms and all Female Obstructions, for which it has no equal

We know there is nothing now before the American people prepared with such skill by a scientific man particularly for diseases of the Liver as Dr Sanford's Invigorator or Liver Remedy It has attained a reputation second to no other article in the world, simply because it rests on its own merit To convince all by trial that it is all that its proprietors claim it to be is all any of our readers are asking from any such diseases as described by Dr Sanford's Invigorator, we know of no remedy that will so surely cure them as the Invigorator

There has lately been brought to our notice a medicine that seems to possess wonderful curative and healing properties in Diseases of the Liver Stomach and Digestive organs It is time to say with so many testimonials in its favor that we have noticed its effects in some of the worst cases of constitutional debility cast off by deranged liver, and in every instance the effect was to relieve or give a permanent cure Dr Sanford's Liver Invigorator is what we refer to, We always have been credulous about cures by patent medicines Until we are convinced that this medicine for family use, is not overrated by the list of recommendations we publish Our advice is, for all to called with Indigestion Debility or Bowel Complaint to get a bottle and try it, our word for it relief will be experienced

Blessings to the head bowing Dr Sanford's Invigorator! It never was known that the patient soon as it is taken on the first touch Pain is in every instance where the Invigorator is used it will surely drive them away to night will find darkness—of this there can be no doubt for in a few hours it never fails to relieve Let the sick be taken As further evidence in the thousands of certificates from those who have been cured by the Invigorator Try one bottle—it will not be for than we assert

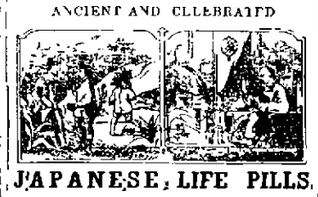
GRINDLE'S ANCIENT AND CELEBRATED



JAPANESE LIFE PILLS.

NATURE'S OWN REMEDY

A positive Cure for Liver Complaint and Bilious Disorders Dyspepsia Rheumatism Scrofula, Costiveness, Piles Dysentery and Diarrhea Worms Suppression of the Menses Nervous Debility &c, and a sure preventive to all

PULMONIC AFFECTIONS

We offer the ANCIENT JAPANESE LIFE PILLS on a more extensive scale after we have tested in a short time the worst forms of disease and after having used them to do so by eminent physicians who have tried them to their satisfaction Performing cures where every other remedy had failed we feel it our solemn duty to spread the glad intelligence to every family of the globe *They purify the system thoroughly of all corrupt humors, penetrate and purify the vital fluids, and the corrupt secretions are replaced with rich, healthy blood Parts that are even decaying with disease are restored to a healthy vigorous action, and disease even buried as if by magic, leaving the system in a robust condition and less prepared to contract disease, than of whole or sound* It seems as if nothing such penetrating and healing virtues could be combined in a single pill, but we can read it in the countenance of the sick and afflicted as they come to us, we can read it in the hopeful grasp of the father's hand and in the mother's warm tears of joy as they behold their darling child snatched from the clutches of death by their powerful agency we can read it in the young man's gaiety and in the old man's vigor and good behaviour, we can read it in the husband's and wife's gratitude and in the children's prattle, we can read it in every cot upon the bosom of the ocean in the sparkling thread and invigorated system of the seaman Yes and we sometimes fancy we can almost read it far up in the blue canopy of heaven, in words of living fire —DISEASE IS VANQUISHED—THE TRIUMPH IS COMPLETE

These ANCIENT PILLS are also an *antidote* remedy for females suffering from suppression of the menses The disease so many declines and female weakness The various diseases that attack children are quickly banished by their healing qualities

The PILLS are sent by mail from the Proprietor only on receipt of the price The postage in the United States not over 3000 miles is fifteen cents on five boxes, which must be inclosed in money or stamps If we have no agent in your place send to us by mail
